

Special times with my great,great grandma.

My great,great grandma is special to me because we shared marvelous memories together. One time my grandma let me drive our beat up white swift car. It was a bit hard to do because the gas pedal was really stuck so I had to push hard!

Another special memory is when she took me go to the fair and she played pac-man with me. We went together on a ferris wheel. I got a little scared because I don't like being up so high. She helped me by being calm and saying " we will be down soon".

She would also play with me and our enormous dog whose name is Lacey. We would run outside with Lacey and throw balls at Lacey and see if she could catch them.

The last thing she gave me was a blanket embroidered with snowflakes, polar bears and teepees .The blanket is special to me now.She gave it to me before she passed away.But before she passed away when she was in the hospital we asked the nurse "can we see our grandma" the nurse said "yes" but she had already passed before we got in to her room and my brother and me were crying.

I will always remember and love my grandma!

Special times with my Cousin

I enjoy hanging out with Maryam, my cousin. She plays with me when my parents and her parents hang out .When she comes over to my house we play on the trampoline. One special memory I have with her is from my birthday. She was the only one who came to my birthday it was marvelous we cut the cake together and went back to a hotel, and then we went swimming in the hotel pool.

A second special memory is the time she went to my house together.

We made a campfire, we played hide and seek and then we played on our phones. I had a phone she had an ipad.

She is just 12 days older than me. We have a nice friendship. She brought me camping and hiking with her. She really likes hiking but I don't really like it that much, but it was still nice because I was with her.

We like watching Netflixs together, in her parents bedroom because it has a comfy bed and a TV. We like telling scary story we screamed one time in her bedroom after telling a scary story it was about 1:00am in the morning. Hopefully, we stay friends for a very long time. Sometimes we do fight but we never bring each other down .

I really love my cousin a lot.

Special Times with my cousins

I love to hear my parents say "we are going to your cousin's, Paige and Colten's house"!

Once we are there I run to their door then come back to my mom and dad, because they have really tiny dogs. It is funny because I admire BIG dogs, like the ones we have at home, but not tiny ones, they scare me. I really don't like when they bite at your ankles.

When it is Christmas and after we have opened our presents at our house we have a little tradition of going to their house! I love getting to spend this time with them, it is fun and makes the day more special.

While we are at my cousins house my sister, Paige and I would play Bath and Body because Paige always has so much perfume, body sprays, and hand lotions. We act like we are at the mall buying all the products that she has.

Another activity that I love is we almost always go into their basement and play with all the blankets and pillows, we use them for a game called The Ground Is Lava.

Now if it's nice outside Paige, my sister and I tend to either play outside on their trampoline. We play a game called Crack The Egg, or we go to the park across from their house and play a game called Grounders it is super fun, I Love it when my sister Jessica is it and I just do not like to be it.

Sometimes when I am it, I try and impoloe r her and Paige to take by place being it.

These are a few reasons why my cousins are awesome.

I love my cousins!

Special times with my Mom

My mom and I love to cook together. I love to watch tv cooking shows with my mom .It gives me good ideas so we can cook together .Once I made a ridiculous moose bun. It was glorious with butter.

Mom and I sometimes make cupcakes together. This Christmas mom and I made Christmas cookies. They were in the shapes of trees, bells and snowmen. Mom and I put icing on it. It was so delicious.

She planned a surprise party for my birthday. Her and Alyssa my sister baked special cupcakes that had sprinkles in them. She invited my family to come to my birthday party. It was fun!

Special Time with my Grandma!

I love spending time with grandma. We like to play marvelous games. We play spaghetti. It is a game where you have a fork you get to spin. I win if I get all the spaghetti gone first.

I love having sleepovers at grandma. I shivered when I was sleeping down stairs in the fort that we made. It was made of rope, blankets and covers. Grandma said if Grandpa snored we could just close the door so we could get some sleep.

Grandma and I like to bake. My sister, grandma and I all baked a chocolate cake. Sometimes when it is just me and grandma we bake cookies and put smarties in them with vanilla chocolate chips because i like the vanilla ones. This is why I love spending time with grandma.

Special times with Grandma Macklin.

My grandma Macklin lived in an intensive care unit in Grand Prairie. We would go see her every year and stay for the week, we came every day for 4 hour visits. There are a lot of stories that she told me but there are a few that stand out. Below is a few on them.

{1) She had a beautiful bay mare.

2) She told me she was oddly short and how her horse would put it's head down so she could hop on.

3) She told me she once saw a fire in her barn but her house was 6 miles away and she was with her horse. There was a well and buckets only 1 mile away so she galoped to the well . With her horse she carried the water back as fast as they could without spilling. She lead the horses out of the barn and threw the water at it and put the fire out.

Sadly my grandma has passed away, but I still remember her and her stories.

Special Times with my Grandma

My Grandma is special because I love spending time with her. We have a special relationship because I lived with her for a year. I still love spending time with her. We play many games together, I love being the winner and having my grandma lose games like Snakes and Ladders and Monopoly Deal. I always shiver because I think I am going to lose but sometimes I win.

My Grandma brought me to a maze on a farm. It was a corn maze, that spelled out words. I forget now what the corn maze spelled. Before we did the maze I looked at pictures of other mazes from different years. There was an oilers logo maze from one year, I think in 2017. All the different designs were all so cool. Another one even had an oilers player and an oilers logo. That one was my favorite picture of a maze.

My Grandma taught me how to build Lego. I think the first lego I ever built was a star wars it had 3 lego guys after building my first lego I learnt how to build bigger legos. The biggest lego I built was 961 pieces, I finished it in 2 days. It was another star wars lego. It was a star wars space ship. It is special to me that grandma helped with my first lego set. I love playing games with her. The games I play with her make me happy.

My grandma will always be special to me.
