REPLACE YOUR TOILET AND SAVE \$50

Replace your old, water guzzling toilet with an efficient, dual flush or low flush (4.8-litre or less per flush) toilet and you are eligible for a rebate of \$50. Replacing your high-volume toilet could also save you over 1000 litres of water each month, putting money back in your pocket.

Your old toilet will qualify if it currently uses 13 litres of water per flush (or more). There may be a stamp on the inside or rear of the tank that indicates the litres/flush. If you cannot find a stamp, calculate the *flush volume* by multiplying length (cm) x width (cm) x water depth (cm) divided by 1000 = volume of flush in litres.

To apply for this rebate, complete the application form and submit to the Town Office with your receipt that indicates a dual flush or low flush model. The rebate is available to Town of Redwater residents only.

Rebates are processed on a first come, first served basis and there will be a maximum of 20 applications processed per year and a limit of one rebate per household.

FLOOD MITIGATION WORK

As per direction by Council, the flood mitigation work will start by mid September. Gradall, a third party contractor has been retained to clean up and grade the drainage ditches starting with the ditch along the CN track south of Cedarwood Condos and Paradise Inn Hotel. This work will increase the storm drainage capacity. Future development can commence with the knowledge that infrastructure damage due to flooding will be reduced and/or eliminated.

COVID-19 INFORMATION

HOW TO WEAR A NON-MEDICAL MASK

Non-medical masks, including homemade cloth masks, can help prevent the spread COVID-19. They are another tool to use in places where it's difficult to keep two metres from other people for extended periods of time – such as public transit, grocery stores, pharmacies, hair salons, airplanes and some retail shops.

Masks do not replace proper hygiene, physical distancing or isolation to prevent the spread.
